

DO YOU EVER **TRULY** KNOW THE PERSON THAT YOU LOVE?

Hard-working Kenny is frustrated and fed up. He wants answers, and he wants them *now*! But there is one major problem: The only person who can give him those answers — his wife, Mennette — has lost her memory in a bizarre accident.

Since then, weird events swirl around the couple and hidden items begin to surface, testing their already fragile marriage. A strange man. A half-million dollars stashed in a private account. A secret safe deposit box with unexplained photos, including sexy pictures of a redhead.

All the clues create more questions than they answer. Does it all add up to a secret affair?

Obsessed with discovering the truth at any cost, Kenny quickly finds himself drowning in a mystery he didn't see coming. As the tangled web of his wife's past secrets, lies, and deceit begin to unravel, the shocking truth leaves him pondering if he ever *really* knew the woman sleeping next to him.
